

## **140 – 142 Burngreave Road Fire Safety Guidance for Residents**

### **Action to Take in the Event of Fire**

Fire evacuation assembly point is on the street to the front of the building.

In the event of a fire in your flat, you should evacuate immediately and call the Fire Service, dialing '999'.

Inform them of the premises address – **140 – 142 Burngreave Road, Sheffield S3 9DH.**

If safe to do so, close your flat entrance door behind you. Do not stop to collect personal belongings.

If you become aware of a fire in any part of the building evacuate the building immediately and call the Fire Service using '999'.

If the fire alarm activates and there does not appear to be a fire in your flat you should continue to evacuate because the fire alarm may have been activated by smoke or fire in another part of the building.

Emergency lighting is provided in the stairway; this will automatically activate in the event of a power failure and will illuminate the escape route.

There is a fire alarm system providing coverage of the whole building.

There is a single stairway available on each side of the building for means of escape – it is important that this area is kept clear; no storage is permitted in the stairway.
